# ABOUT US

Billionaire World is a community of crypto enthusiasts. Our goal is to unite more than 1,000,000 partners around the world and, thanks to this, create a better ecosystem for earning various cryptocurrencies using:

- Airdrop
- Gaming
- Crypto Tools

To achieve this goal, we have created a smart contract on the opBNB network, which gives us a number of advantages:

1. Reliability. The smart contract cannot be hacked, and all distributions go immediately to the wallets of partners and are not stored on the smart contract. Therefore, our system is safe and can work indefinitely.
2. Profitability. With us, absolutely anyone with only \$25 can create their own online crypto business, which can bring up to \$ 82 million for each business place.
3. Lightness. To achieve great results, each partner needs to invite only two friends to our community.

# HOW THE BILLIONAIRE WORLD SMART CONTRACT WORKS

100% of the funds included in the contract are distributed as follows:

- 1. 20% direct bonus. It is credited for purchases of packages by your personally invited partners.
- 2. 60% team bonus. It is credited for the purchase of packages by your partners from the depths of the structure.
- 3. Royalty bonus of 2%. It is credited upon purchase of the Managing Director level and above.
- 4. Development of future crypto products 10%.
- 5. The company's share is 8%.

You can start a business with our community with 0.043 BNB (~\$25)\*

\*The calculation uses the BNB 600\$ exchange rate

# HOW THE DIRECT BONUS WORKS IN BILLIONAIRE WORLD

There can be an unlimited number of people in your first line, but only two of them will occupy the top positions in the binary. The third and subsequent personally invited partners will occupy places from bottom to top from left to right in your structure.

For activation by your personal partners of each level, you receive 20% of the cost of the level\*

\*If you do not have a level that your partner activates, then a direct bonus is awarded to the nearest superior partner who already has this level open.

# HOW THE TEAM BONUS WORKS IN BILLIONAIRE WORLD

The team bonus at each level is awarded from a certain binary depth. For example, on the first package you get a team bonus for activating two partners who are in the binary directly below you. On the second package, you receive a team bonus from the partners who stand in the binary in your second line and activate the second package. On the third package, you receive a team bonus from the partners who stand in the binary in your third line and activate the third package\*. Etc.

\*If you do not have a level that is activated by a partner of your team, then the team bonus is awarded to the nearest superior partner who already has this level open.

# HOW THE ROYALTY BONUS WORKS IN BILLIONAIRE WORLD

This bonus allows our partners to receive income from the entire turnover of the company. 2% of all package purchases are allocated to it. The Royalty bonus is distributed daily between partners who have activated the following levels:

Managing director = 0.25%  
Senior Director = 0.25%  
executive Director = 0.25%  
President = 0.25%  
King Maker = 1%

Example:

Suppose the total turnover of the system today is \$1,000,000. This means that \$20,000 will be distributed according to the royalty bonus.

Let's also assume that in the system

- 50 Managing director. Each of them will receive \$50 ( $1,000,000 \times 0.25\% / 50$ )
- 25 Senior Director. Each of them will receive \$100 ( $1,000,000 \times 0.25\% / 25$ )
- 12 Executive Director. Each of them will receive \$208 ( $1,000,000 \times 0.25\% / 12$ )
- 6 President . Each of them will receive \$416 ( $1,000,000 \times 0.25\% / 6$ )
- 3 King Maker. Each of them will receive \$3333 ( $1,000,000 \times 1\% / 3$ )

\*The income from the royalty bonus cannot exceed 200% of the package price. As soon as you receive 200% of the package price, the royalty bonus will no longer be credited to you.
